Building and Construction in Asia
This programme continuously monitors and analyses the building and construction industries for Asian countries, with the output presented in an annual report for each country. This study was launched in 1994 to allow the subscribing companies to take advantage of new market trends and country opportunities.

Contents of the reports

- **Economic outlook for each country**
  An overview of the economic situation, including the main economic indicators for each country and five-year forecasts.

- **Residential building**
  Historical data and five-year forecasts on residential building activity, and detailed analysis.

- **Non-residential building**
  Historical data and five-year forecasts on non-residential building activity, and detailed analysis.

- **Engineering construction**
  Historical data and five-year forecasts on engineering construction, and detailed analysis.

**Methodology**
The general methodology used for this study is the product of over 50+ years of methods research and development by BIS Oxford Economics. This methodology reflects the latest thinking and proven techniques for the production of the most useful decision support tools possible.

- **Field research**
  Interviews allow us to establish a ‘support network’ consisting of specialists who can provide key information. Interviews are conducted with major builders, developers, economic analysts and senior government officers.

- **Desk research**
  **Online services**
  The use of services such as Factiva and the Internet allows us to regularly monitor more than 8,000 publications for up-to-date information.

  **Magazines and publications**
  All officially published data as well as production and market information is analysed and checked for detail and reliability.

  **Other sources**
  Close relationships are maintained with national and international organisations, such as government institutions and trade associations.

- **Subscription**
The annual subscription per country is $6,500 (plus GST for Australian based companies), inclusive of an electronic copy and excel tables of each quarterly report.

Order Form Building and Construction in Asia 2017 – 2021

Please complete

Please send me the following report(s):
Country coverage
☐ China  ☐ Hong Kong  ☐ India  ☐ Indonesia  ☐ Malaysia  ☐ Philippines  ☐ Singapore  ☐ South Korea  ☐ Taiwan  ☐ Thailand  ☐ Vietnam  ☐ Japan

Subscription costs per country are as follows:

Please send me
☐ This subscription includes two copies of the report  $6,500*
☐ Discount is available for multi country subscription

Mr/Mrs/Ms ____________________________
Position ______________________________
Company ______________________________
Street address _____________________________ Postcode ______
Postal address _____________________________ Postcode ______
Telephone _______________________________
